

## TEACHER TRAINING SUBJECT SPECIALISM (TSST)

# PHYSICS

For the third consecutive year Twyford CE High School continues to offer subject specialism training in Physics for non-specialist teachers, returning teachers and those teachers wishing to improve their subject knowledge in tougher areas of the Physics curriculum. This highly successful CPD programme consists of twelve free twilight workshops approved and funded by the Department for Education and supported by the Institute of Physics. Workshops are designed to boost subject knowledge, improve pedagogy and increase teachers' confidence in the delivery of Physics to Key Stages 3, 4 and 5. Workshops are suited to current teachers delivering Physics as a non-specialist subject, newly qualified teachers, overseas trained teachers and those returning to teaching.

WORKSHOPS RUN FROM  
4.00-6.30PM

MOTION & FORCES
